

Email Thread - Titan Components Price Escalation (Export)

Thread period: 2026-03-18 | Participants: Supplier Sales, Procurement Lead, CFO

Email 1 (Supplier -> Procurement)

Subject: Urgent - Price update for nickel-based components

Due to nickel index movement, we must increase unit prices by 12% effective immediately. Please sign the attached addendum and confirm 50% prepayment within 5 days to secure allocation.

Attachment referenced: Titan_Addendum_2026-03-15.pdf (NOT ATTACHED in this export).

Email 2 (Procurement -> Supplier)

Contract clause 4.2 requires 30 days notice and index evidence. Please send LME index reference and confirm whether you intend to follow clause mechanics.

Also: PO INC-3342 indicates FOB Shanghai, but your forwarder claims CIF Rotterdam. Please clarify.

Email 3 (Supplier -> All)

We can provide index evidence later. Allocation is tight; without prepayment, lead time may extend by 3 weeks. Shipping is CIF as standard for this lane.
